

# **Archery Range Rules**

## **Please Read Before Using Range**

- 1) The Archery Range is for the sole use of PHC Members, Associate Members and Guests. All Associate Members and Guests must be accompanied by a Member at all times while at the range. Members are responsible for Archery Range Safety and the actions of their Associate Members and Guests.**
- 2) Members must Sign In at the camp shed prior to using the Archery Range and Sign Out when finished using the range. All accompanying Associate Members and/or Guests are to be listed on the Sign In & Out Sheet. All Associate Members and/or Guests must sign a PHC “Liability Release Form” prior to using the Archery Range.**
- 3) No Members, Associate Members or Guests are allowed to use the Archery Range during or after consumption of alcohol during the same day. Any abuse of this rule will not be tolerated along with any unsafe actions or disorderly conduct of anyone while on the Archery Range.**
- 4) The Archery Range can be used all day throughout the year. Prior to shooting your bow; inspect all archery equipment for damage. Examples: bent/cracked arrows shafts, frayed or damaged bow strings or cables, cracked limbs, missing or damage fletching, etc. Any of these defects can affect accuracy and present safety issues.**
- 5) Before shooting any bow, walk down range and make sure the range is clear. Archers can only shoot their bows from the Archery Shooting Lane, which is 20 ft. wide and extends from the archery target stand back to the road and is bounded on the left side by the range markers. No shots are to be taken from or across the road or outside this 20 ft. wide Archery Shooting Lane.**
- 6) While using the Archery Range caution, safety and common sense is greatly emphasized. All shots should be fired down range into an appropriate backstop. All arrows should be shot into targets designed for the bow being used. Note: Crossbows and some fast compound bows require a backstop that can stop arrows with speeds up to 400 fps. All archery targets are to be placed inside the archery target stand. 3D archery targets are to be placed no more than 5 feet directly in front of the archery target stand.**
- 7) The Member signing for the Archery Range is responsible for ensuring that all trash is removed prior to Sign-Out of the range.**

**Recommendation on improving the Archery Range or Safety Concerns should be directed to the club’s Sign In Range or Safety Compliance Work Leaders.**
