

# **Firearm Range Rules**

## **Please Read Before Using Range**

- 1) The Firearm Range is for the sole use of PHC Members, Associate Members and Guests. All Associate Members and Guests must be accompanied by a Member at all times while at the range. Members are responsible for Range Safety and the actions of their Associate Members and Guests that accompany them.**
- 2) Members must Sign In at the camp shed prior to using the Firearm Range and Sign Out when finished using the range. All accompanying Associate Members and/or Guests are to be listed on the Sign In & Out Sheet. All Associate Members and/or Guests must sign a PHC “Liability Release Form” prior to using the Firearm Range.**
- 3) The Firearm Range is designed for sighting in muzzleloaders, rifles and shotguns and can be used all day from January 15 through September 15, except during Turkey Season (April). During both Deer and Turkey season the Firearm Range has time restrictions and can only be used for “Sight Check Only” from 11:00 AM to 2:00 PM, no target shooting allowed during this time.**
- 4) No Members, Associate Members or Guests are allowed to use the Firearm Range during or after consumption of alcohol during the same day. Any abuse of this rule will not be tolerated along with any unsafe actions or disorderly conduct of anyone while on the Firearm Range.**
- 5) While using the Firearm Range caution, safety and common sense is greatly emphasized. All shots should be fired down range into the backstop between the range boundary markers (Red Striped Barber Poles). These are the left and right limits of the range. Never fire or point a firearm outside of these markers. Targets are not to be attached to boundary markers or attached to trees outside of the range boundary markers.**
- 6) Before discharging any firearm, walk down range and make sure the range is clear. Eye and ear protection are recommended while at the Firearm Range. When guns are not in use, they must be stored in the gun rack unloaded and cleared with the bolts or breach open; this should be done before moving down range.**
- 7) The Member signing for the Firearm Range is responsible for ensuring that all brass; cartridges, targets and trash are removed prior to Sign-Out of the range.**

**Recommendation on improving the Firearm Range or Safety Concerns should be directed to the club’s Sight In Range or Safety Compliance Work Leaders.**
